A Recognition of the Class of

2020

Commencement
Convocation
“Today, we extend a distinguished tradition—one where we come together, as a community, to honor our students and celebrate their tremendous academic growth and accomplishments.”

Chancellor Patrick Gallagher
A MESSAGE FROM
CHANCELLOR PATRICK GALLAGHER

Thank you for joining us for a long overdue in-person celebration of the University of Pittsburgh’s 2020 Commencement.

Today, we extend a distinguished tradition—one where we come together, as a community, to recognize our students and their tremendous academic growth and accomplishments.

While delayed, this tradition persists—even during a pandemic—because a diverse group of family, friends, faculty and staff has once again challenged our students and championed their success. To those of you who have offered such vital support: Thank you.

These graduates whom we honor today have joined an even bigger Pitt community—one that is more than 350,000 alumni strong and is defined by individuals who are living out our university’s mission of leveraging knowledge for society’s gain.

To the members of our Class of 2020: Congratulations! You are part of an elite group with a noble mission, and I am excited to watch you continue to lead lives of impact for years to come.

Patrick Gallagher
Chancellor
COLORS DISTINCTIVE OF THE DISCIPLINES
AND PROFESSIONS

Color is an important element of all academic ceremonies. Referred to as “faculty colors,” they are used to symbolize degrees earned and areas of study. The colors are based on tradition and are displayed on edgings of hoods, tassels on caps, and flags or banners that represent each school or college.

THE NATIONAL ANTHEM

Oh! say, can you see, by the dawn’s early light,
What so proudly we hail’d at the twilight’s last gleaming,
Whose broad stripes and bright stars, thro’ the perilous fight,
O’er the ramparts we watch’d were so gallantly streaming?
   And the rockets’ red glare, the bombs bursting in air
   Gave proof thro’ the night that our flag was still there;
Oh! say, does that star-spangled banner yet wave
O’er the land of the free and the home of the brave?

ALMA MATER

Alma Mater, wise and glorious,
Child of Light and Bride of Truth,
   Over fate and foe victorious,
   Dower’d with eternal youth.
Crowned with love of son and daughter,
   Thou shalt conquer as of yore.
Dear Old Pittsburgh, Alma Mater,
   God preserve Thee evermore!

MARY ELLEN CALLAHAN

Mary Ellen Callahan is vice chair of the University of Pittsburgh Board of Trustees and is exercising the duties of the chair of the Board of Trustees. She has unique and broad experience at the interface of privacy protection with cybersecurity and national security and currently works for the federal government.

Callahan was the assistant general counsel for privacy with The Walt Disney Company from 2017 to 2021. She founded and chaired Jenner & Block’s privacy and information governance practice from 2012 to 2017 and served as chief privacy officer of the U.S. Department of Homeland Security from March 2009 until August 2012. In 2013, Callahan received the International Association of Privacy Professionals Privacy Vanguard Award, an annual award honoring the privacy professional who has demonstrated outstanding leadership, knowledge, and creativity in privacy and data protection.

A Chancellor’s scholar as an undergraduate, Callahan received her Bachelor of Philosophy in political science in 1990 from Pitt’s Kenneth P. Dietrich School of Arts and Sciences. She received her Juris Doctor from the University of Chicago Law School.

Callahan has been a member of the Board of Trustees since 2009 and has served as vice chair since February 2020. She has served on various trustee committees, including chairing the Academic Affairs/Libraries Committee from 2011 to 2017 and the Student Affairs Committee from 2017 to 2021. She also was a recipient of the University’s 225th Anniversary Medallion and chaired the University Honors College Board of Visitors.
CANDIDATES FOR DEGREES

At this commencement ceremony, degrees are conferred upon persons who completed requirements in June, August, and December 2019 and April, May, and June 2020. This program book provides historical context by listing the various administrative officers, deans, campus presidents, and Board of Trustees members for 2020. The listing of a degree on a University academic transcript is the official testimony of degree conferral. This academic achievement is celebrated through the issuance of a University diploma.

DOCTOR OF PHILOSOPHY

April 2020
Yusuf A. Akinbade, BEng, MS,
University of Southampton, United Kingdom, 2010; Purdue University, 2011 Major: Civil Engineering. Dissertation: Mechanical and Morphological Characterization of Full-culm Bamboo.
Marcus Charles Allen, BS,
Patrick T. Brennan, BSE,

Rongtao Cao, BEng, MEng,
John William DeSantis, BSE,

Michael Joseph Durka, BSE,
Gerald Dave Agulan Ferrer,

Vahidreza Molazadeh, BSc, MSc, K.N. Toosi University of Technology, Iran, 2013; Sharif University of Technology, Iran, 2015. Major: Mechanical Engineering. Dissertation: Iterative Learning Control Methods for Hybrid Wearable Robots.

Tales Roberto de Souza Santini, Electrical Engineer, MS, University of Sao Paulo, Brazil, 2010, 2014. Major: Bioengineering. Dissertation: Advances in Radiofrequency Coil Developments for 7 Tesla Human MRI.

Jr-Jiun Liou, BS, MEng, National Taiwan University, Taiwan, 2012; Cornell University, 2013. Major: Bioengineering. Dissertation: Application of Platelet–rich Plasma in Combination with Cell-based Therapy for Cartilage Repair.

Erfan Mehmanchi, Bachelor, MS, University of Tehran, Iran, 2011; Sharif University of Technology, Iran, 2013. Major: Industrial Engineering. Dissertation: Reformulation Techniques and Solution Approaches for Fractional 0–1 Programs and Applications.

August 2019

Piyusha Sanjay Gade, BEng, MS, University of Pune, India, 2012; University of Iowa, 2014. Major: Bioengineering. Dissertation: Coupled Theoretical and Experimental Methods to Understand Growth and Remodeling of In Situ Engineered Vascular Grafs in Young and Aged Hosts.

Chu–Chih Hung, BS, MS, National Chiao Tung University, Taiwan, 2009; National Yang–Ming University, Taiwan, 2011. Major: Bioengineering. Dissertation: The Role of Magnesium Ions in Osteogenic Signaling Pathways.

ACADEMIC HERALDRY THE SYMBOLS OF LEARNING

The college or university commencement procession today, in this country and abroad, is a pageant, alive and bright with the dress and ceremony inherited from the medieval universities of the 11th and 12th centuries.

Academic life as we know it today began in the Middle Ages—with Bologna and Paris; Oxford and Cambridge; Edinburgh, Glasgow, and Louvain—first in the church, then in the guilds. The teaching guild was the Guild of the Master of Arts, where the bachelor was the apprentice of the master and the dress was the outward sign of privilege and responsibility. The dress made visible, in color and pattern, the unity of men of like purpose. Twelfth-century records of the University of Oxford carry this justification for academic dress: “It is honourable and in accordance with reason that clerks to whom God has given an advantage of the lay folk in their adornments within, should likewise differ from the lay folk outwardly in dress.”

Their design and heraldry were the outward indications of the bringing together of students and privileged persons under the same disciplines.

In later centuries, to preserve their dignity and meaning, it became necessary for universities to set rules for academic dress. American universities agreed on a definite system in 1895 and set up a suitable code of academic dress for the colleges and universities of the United States. In 1932, the American Council on Education presented a revised code, which for the most part governs the style of academic dress today.

The principal features of academic dress are three: the gown, the cap, and the hood.

The Gown. The flowing gown comes from the 12th century. Many think it was worn in olden times as protection against the cold of unheated buildings. It has become symbolic of the democracy of scholarship, for it completely covers any dress of rank or social standing underneath. It is black for all degrees, with pointed sleeves for the bachelor’s degree; long closed sleeves for the master’s degree, with a slit for the arm; and round open sleeves for the doctoral degree. The gown worn for the bachelor’s or master’s degree has no trimmings. The gown for the doctoral degree is faced down the front with velvet and has three bars of velvet across the sleeves, in the color distinctive of the faculty or discipline to which the degree pertains. The official colors of the college may now appear in the gown or its decorations. (The trustees and administrative officers of the University of Pittsburgh wear gowns trimmed in blue velvet edged in gold faille.)

The Cap. The freed slave in ancient Rome won the privilege of wearing a cap, and so the academic cap is a sign of the freedom of scholarship and the responsibility and dignity with which scholarship endows the wearer. Old poetry records the cap of scholarship as square to symbolize the book, although some authorities claim that the mortarboard is the symbol of the masons, a privileged guild. The color of the tassel on the cap denotes the discipline.

The Hood. Heraldically, the hood is an inverted shield with one or more chevrons of a secondary color on the ground of the primary color of the college. The color of the facing of the hood denotes the discipline represented by the degree; the color of the lining of the hood designates the university or college from which the degree was granted.

The Mace. A ceremonial staff is carried by the chief University marshal, who is the president of the University Senate. The chief University marshal opens and closes all academic convocations, such as Honors Convocation and Commencement Convocation. A Pittsburgh artist designed the mace for the University of Pittsburgh. The design was created from an existing bronze seal representing the Office of the Chancellor. The seal is surrounded by concentric rims that are supported by four contemporary shapes. The hand-turned shaft is made of native Pennsylvania walnut.
